

## Taking care of you is what we do.

Research demonstrates that accurate diagnosis and rapid medical attention greatly improves patient outcomes for stroke, STEMI and vascular emergencies. **This begins with EMS and hospital emergency care.**

The Gates Vascular Institute is proud to sponsor this program for EMS providers to increase knowledge of the benefits of a collaborative care model.

### Guest Speakers:

**Adnan Siddiqui, MD, PhD**

Director, Neurosurgical Stroke Services (GVI)  
Associate Professor and Vice-chairman,  
Dept. of Neurosurgery (UB)  
Attending Endovascular Neurosurgeon,
