

EMS MCI Management

August 11-12, 2015

TRAINING ANNOUNCEMENT

Course Description:

EMS Multiple Casualty Incident Management is intended to provide EMS personnel with the knowledge and skills needed to effectively respond to and manage a multiple casualty incident (MCI). Students will learn principles and practices of triage, scene management, communications, and coordination.

Students will apply the MCI management skills they have learned to engage in increasingly complex scenario-based activities that encourage effective response through establishing EMS command, collaborating with partners and other responders, conducting triage using lifesaving interventions, and using overall scene management principles. This course is physically demanding: every student should be aware of this and **consider self-exclusion** if s/he has concerns about their physical condition or suffers from any health or other physical abnormality that may place them at risk.

Course Provider:

This course is being taught by a team of instructors from the State Preparedness Training Center and the National Center for Security & Preparedness.

Topics Include:

- Scene Orchestration and Management
- Triage Systems
- TECC
- Life-Saving Interventions
- Secondary Triage
- Pre-planning for Events
